GitHub: <https://github.com/jsalariya2008>

First-year B.Tech CSIT student at Symbiosis University Of Applied Science | Co-founder of ALGO Streetwear | Full-stack developer with published ISRO research and international Best paper award | Building real products at the intersection of web development, AI, and Cybersecurity

EDUCATION

Bachelor of Technology (B.Tech) - Computer Science & Information Technology

Symbiosis University of Applied Sciences, Indore

2025 - 2029

CBSE (Class 10+2)

New Look Sr. Sec. School, Banswara, Rajasthan

2023 - 2025

TECHNICAL SKILLS

- **Languages:** C/C++, Java, Python, JavaScript
 - **Web Development:** HTML, CSS, Flask
 - **Database:** MySQL
 - **Tools:** Git, GitHub, VS Code, Oracle, Vercel, Render, Razorpay (Payment integration)
 - **Core Areas:** Data Structures , UI/UX, AI, Cybersecurity, Cryptography
-

PROJECTS

Full-Stack E-Commerce Shopping Portal

(<https://github.com/jsalariya2008/Algo-Wear>) (<https://algo-store.onrender.com>)

- Developed a full-stack web application using HTML,CSS, JavaScript, Python, Flask and MySQL, Razorpay.
- Built full-stack e-commerce platform with cart, order management, and Razorpay payment integration
- Integrated backend with database for efficient data management
- Focused on performance, usability, and clean code architecture

Cryp Nova (<https://github.com/jsalariya2008/CrypNova>) (<https://cryp-nova.vercel.app/>)

- Lead with top 25 of 100+ teams in Symbiosis National Hackathon.
- Developed a system to detect vulnerabilities in source code.
- Applied encryption techniques such as RSA and ECC.
- Suggested automated fixes for improving software security.
- Implemented multi-language code analysis with risk prioritization.

Her Voice – (Web Design Competition, ACM) (<https://github.com/jsalariya2008/Women-Empowerment-ACM>)

- Developed a responsive frontend platform focused on women empowerment and accessibility
- Implemented structured layout and interactive UI components.
- Secured 2nd Prize at ACM University level.

Prevention of Tampering (<https://github.com/jsalariya2008/Weighing-machine>)

- Built frontend interface for prevention of tampering of weighing machine.
- Developed real-time tracking UI for tamper detection
- Contributed to hardware-integrated solution
- Nominated for Smart India Hackathon (SIH-2025)

RESEARCH EXPERIENCE

1. Dynamic Key Synchronization using Cosmic Noise for Secure Satellite Communication

- Focused on quantum-resilient encryption and real-time dynamic key generation
- Proposed cosmic noise-based cryptographic model for secure satellite communication
- Selected for presentation at ISRO (URSC), Bengaluru (5-6 February 2026)
- Research published on official ISRO platform
(https://www.ursc.gov.in/AITC2025/Final_Students_Proceedings.pdf pg. 41)

2. Data-Driven Short-Term Energy Load Forecasting Using AI

- Designed framework for sustainable digital enterprises and energy optimization
- Presented at 14th International Research Conference at Aditya Institute of Management, Mumbai (March 2026)
- Awarded Best Paper Award

ACHIEVEMENTS

- Best Paper Award - International Research Conference (2026)
- Research Paper Selected, Presented & Published - ISRO (URSC)
- 2nd Prize - ACM SheCodes(Front End Design Competition)
- Lead in top 25 from 100+ teams in Symbiosis Skill Hackathon

EXTRA CURRICULAR

- Member - IEEE (Institute of Electrical and Electronics Engineers)
- Volunteer - ISRO Exhibition (SUAS)
- Volunteer - IEEE ICT BIG 2026
- Volunteer - IEEE WorldSUAS 2025 Conference

INTERESTS

Music (Guitar, Piano, Harmonium, Flute) · Sketching · Poetry Writing
